

Riverside Partners Completes Growth Equity Investment in Vocollect, the Leader in Voice Directed Supply Chain and Healthcare Workforce Management Solutions

July 2009, Boston, MA

Riverside Partners, based in Boston, Mass., is pleased to announce that it has completed a growth equity investment in Vocollect, Inc. This investment is designed to accelerate Vocollect's growth through a variety of on-going initiatives including, geographic expansion and product development efforts, as well as to expand the penetration of Vocollect Voice into markets beyond supply chain and healthcare.

Vocollect is the world leader in voice solutions for workforce management of mobile workers. Vocollect's supply chain business was founded more than 20 years ago. The company provides voice applications for use across core supply chain functions such as distribution centers and warehouses. Vocollect helps customers reduce costs, increase worker productivity and accuracy, and improve safety and worker satisfaction. Every day Vocollect Voice is used by over 250,000 workers worldwide to distribute more than \$2 billion dollars' worth of goods to customer locations.

Vocollect Healthcare Systems' AccuNurse voice-assisted care solution is used by nurse aides for the management and documentation of patient care in skilled nursing facilities (SNFs). Organizations using AccuNurse benefit from reduced paper processing, lower operating costs, increased reimbursements and improved quality of care.

"Vocollect's voice-enabled workforce management systems are widely recognized for streamlining supply chain workflows and enhancing worker productivity and accuracy. Beyond their success in the supply chain business, we were impressed by the success of Vocollect's management in leveraging the company's core technology to enter the healthcare IT market. Vocollect's healthcare products enable SNFs to deliver more effective patient care, increase worker productivity, and reduce the administrative costs of compliance. Riverside is excited to partner with Vocollect's co-founder and CEO Roger Byford, and we look forward to working with Roger and his team to further the company's growth," said Steven F. Kaplan, General Partner of Riverside Partners.

"Vocollect was looking for a partner that brought more than just capital to the company. The existing shareholders and management wanted a value-added partner with deep domain experience in the technology and healthcare markets. We believe the team at Riverside Partners is well-suited to help Vocollect build on its strong foundation and accelerate our growth," said Roger Byford, Vocollect CEO.

"In today's challenging economy, it is gratifying that Riverside sees the vast potential of voice in helping organizations achieve a higher level of business performance. This investment in Vocollect's future will further enable us to continue our strong level of innovation and research so that we can identify and address unmet market needs, as well as expand our current leadership position in existing markets," Byford said.

About Vocollect
